

# Online Crash Course

## Introduction to the Course

The GMATWhiz Online Crash Course is a highly personalized, technology-enabled offering for students who are looking for a fast track improvement in their GMAT scores. The crash course will allow students to experience dual benefits of learning from an online course as well as taking live classes by our senior-most faculty at GMATWhiz. To maximise your learning from the course, we recommend a certain pre-requisite that students must complete from the online course before each session. This will help you learn the basics from the online course and also get the required practice by solving questions. We value our students' time, the importance of doubt clearing, and stress upon accurate application of concepts. Here's how the crash course work –

# Details of the Online Crash Course

	Quant Advanced Questions	31st July	7:00 pm IST (1:30 pm GMT)

## What our students have to say about us?

### Low 500s to GMAT 760

"I practised only from the GMATWhiz platform. They gave a detailed solution to every question which I did not get anywhere else. Private tutoring with Sunita helped greatly. She trained me to understand the questions from a meaning perspective and then apply rules which helped increase my accuracy in SC, CR, and RC."

-Ravi

### Improvement to GMAT 740

Despite taking the GMAT thrice, I was still struggling with a low score because I had learned several wrong techniques. With GMATWhiz, I unlearned most of them. The methods and strategies they taught played a key role in improving my score. Not only did I cross the 700 marks but ended up scoring a whopping 740.

-Rajeev

### 130 point improvement in just 40 days

"The approach on how to develop reading skills and the detailed analysis of every passage helped me score 85% on RC. It helped me mark answer choices with confidence." [View more](#)

- Rummana Sukrana

## Our Pricing

**\$ 349**

<b>No. of Sessions</b>	25 Online Sessions
<b>Duration of course</b>	13 Weeks
